The following requirements and accommodations **MUST** be met to conduct an in-house **Driver Operator Pumper** class:

- Facility must be: ADA compliant, climate controlled, minimum of two restrooms and ample parking for candidates and evaluators.
- Minimum of three fully-functional Class A Pumpers for a class with 1-10 students and add one Class A Pumper for classes with 11-20 students that can be driven by all candidates.
- Sufficient number of traffic cones to complete required cone course outlined on "Fire Apparatus Operator Skills Diagram".
- Isolated/protected area large enough to accommodate cone course outlined on Skill Sheet P-2.
- Two folding dump tanks, minimum of 2500 gallons.
- Hard suction that matches pumper intake size x3.
- Low-level strainer with siphon connection x2.
- Portable master stream device.
- Ability to mimic a high-rise connection.
- Minimum of 200' of 1¾' fire hose.
- Minimum of 200' of 2½' fire hose.
- Accessible fire hydrant.
- Generator with cords and lights.

Mobile Water Supply (in addition to Driver Operator Pumper):

- Apparatus with a minimum of 1000 gallon water tank and preferably with 8 inch or larger dump valve.
- Two folding dump tanks, minimum of 2500 gallons.
