State FF ID Number: _____ Date of Birth: _____ Contact Phone #: (____) _____ - _____

Name of Department: _____ Dept. ID#: _____

NFPA 1002:2014, Standard for Fire Apparatus Driver/Operator Professional Qualifications[®], requires all DO-Pumper candidates to be competent in requisite skills and procedures as outlined by job performance requirements contained within Chapters 4 and 5 of the standard, toward eligibility for certification.

All objectives listed below must be checked and the signature block signed by the candidate and instructor, agency head or designee before eligibility to be certified. This document is a testament to the competency of the candidate and a statement of training to the tasks listed within the standard.

JPR#	JPR Description	√	JPR#	JPR Description	√
1	Perform routine tests, inspections, and servicing functions on the systems and components, given a fire department vehicle, its manufacturer's specification, and policies and procedures of the jurisdiction, so that the operations status of the vehicle is verified.		7	The ability to position a fire department pumper to operate at a fire hydrant and at a static water source, power transfer from vehicle engine to pump, draft, operate pumper pressure control valve (multistage pumps only), operate auxiliary cooling systems, make the transition between internal and external water sources, and assemble hose lines, nozzles, valves, and appliances.	
2	The ability to use hand tools, recognize system problems, and correct any deficiency noted according to policy.		8	The ability to operate foam proportioning equipment and connect foam stream equipment	
3	The ability to use tools and equipment and complete all related departmental forms.				
4	The ability to operate passenger restraint devices; maintain safe following distances; maintain control of the vehicle while accelerating, decelerating, and turning, given road, weather, and traffic conditions; operate under adverse environmental or driving surface conditions; and use automotive gauges and controls.				
5	The ability to use mirrors and judge vehicle clearance.				
6	The ability to deploy, energize, and monitor the system or equipment and to recognize and correct system problems.
